

STORMWATER SYSTEMS

FEBRUARY NEWSLETTER

It's our 4th Birthday!

Last Friday we celebrated our 4th birthday with pizzas and drinks at Pt Chevalier Beach.

This year we have already doubled our fleet and product range! We've been rapidly increasing our number of staff, installations, approved installers, and there is so much more to come.

Thank you to everyone who has supported us over the last four years!
We have some very exciting announcements coming up so be sure to look out over the next few months.

The Stormwater Systems Team!

Sustainable Coastlines Partnership

At Stormwater Systems we're passionate about water sustainability. Protecting our ponds and streams near urban areas, whilst sensitive to your need for innovative stormwater solutions, such as Aquacomb and FenceTank, is important to us. That's why we are proud to announce we have launched a partnership with Sustainable Coastlines!

Sustainable Coastlines are a New Zealand charity committed to looking after New Zealand's coastlines and waterways.

BRANZ Answers Seminars Update

This week, Andrew and Roger attended the BRANZ Answers Christchurch seminar that started this week. We're proud to be a sponsor of this year's BRANZ seminars!

Are you wanting to stay ahead of the game and grow your knowledge in 2021? Learn new ways of building and designing for better performance, new products, and upcoming regulation changes.

It's not too late to buy your ticket! Check out the link below to see when BRANZ will be in your city!

We will be attending all major cities, enquire to find out exact locations.

Aquacomb - Your Water Restriction Solution!

The water restrictions are sending home owners into a water frenzy which comes as no

surprise - especially considering Watercare announced water costs are on the rise!
We had one homeowner have 15,400L (44 x 350L) of Aquacomb pods installed for topping up their swimming pool and garden irrigation. They were able to stack up to 3 Aquacomb pods high under their deck to make for the perfect hidden stormwater solution.

Have you considered installing water tanks to help top up your swimming pool? The average pool loses up to 40mm of water per day due to evaporation and even more when people are jumping into the pool and exiting.

Contact us to find out more

Come and Grow With Us!

We are looking for great people to join our team for this year. If you're looking for a

new role with a team that is positive, fun, innovative and rewards success, get in touch!
